

COMPANY PROFILE 2025

**YOUR VISION, OUR
EXPERTISE**

DEEP ROOTS STABLE FUTURE

INITIAL STEP

Nimu Tech emerged in 2008, aligning its inception with the reconstruction efforts in Iraq. From its onset, Nimu Tech dedicated itself to providing civil engineering and construction services to esteemed Prime Contractors. Collaborating closely with these contractors, Nimu Tech swiftly assimilated international construction methodologies, emphasizing aspects such as health and safety protocols, stringent quality control measures, and proficient project management techniques. The invaluable experience gained through these collaborations served as a springboard for Nimu Tech's diversification into an array of complementary service sectors. Expanding beyond its foundational construction expertise, Nimu Tech ventured into domains such as Oil & Gas, Warehousing, electrical works, logistics, vehicle leasing and manpower provision.

OUR FAMILY

Members of Nimu Tech

NIMU TECH

Oil & Gas

With More Than 14 years of experience in the Oil & Gas sector, Nimu Tech has become a leading expert in this field, having completed various mechanical, electrical, waste management & and hundreds of kilometers of pipeline projects for dozens of international and local companies.

Nimu Tech Oil & Gas team stands as a formidable force in the industry, possessing the expertise and proficiency to successfully execute any given project with unparalleled professional prowess. Our commitment extends beyond mere project completion; we are dedicated to not only meeting but surpassing all our clients' needs and expectations.

Nimu Tech World Oil & Gas, we pride ourselves on a highly skilled team that is adept at navigating the complexities of the oil and gas sector.

Our professionals are equipped with cutting-edge knowledge, ensuring that every project is approached with a blend of innovation and industry best practices. We understand the unique challenges that each project presents and are prepared to tailor our solutions accordingly, ensuring optimal results.

Our client-centric approach goes beyond the project itself. We prioritize clear communication, transparency, and collaborative partnerships, fostering a relationship that extends beyond the completion of a single project. Nimu Tech Oil & Gas is not just a service provider; we are a reliable and strategic partner committed to the long-term success of our clients in the ever-evolving landscape of the oil and gas industry.

NIMU TECH

Warehousing & Logistics

Nimu Tech has firmly established itself as a logistics powerhouse, providing a comprehensive suite of services to diverse companies across Iraq. Renowned for our exceptional procurement capabilities, we seamlessly acquire necessary equipment, showcasing versatility in meeting a wide spectrum of logistical needs with unparalleled ease.

Our logistical proficiency extends beyond transportation and distribution, encompassing meticulous management of clearance and customs requirements. Nimu Tech ensures a streamlined and hassle-free process for clients, emphasizing precision, efficiency, and unwavering reliability in every logistical endeavor.

What sets Nimu Tech apart is not just our commitment to end-to-end

solutions but also our substantial infrastructure investment. With ownership of 250,000 square meters of strategically positioned covered and uncovered storage facilities across Iraq, we provide secure and accessible storage tailored to the unique needs of our clients.

In addition to our logistics prowess, Nimu Tech takes pride in our procurement capabilities, ensuring a seamless and efficient supply chain. Moreover, as authorized distributors of Schneider Electric, we bring a further layer of reliability and quality assurance to our services. This strategic partnership enhances our ability to provide cutting-edge solutions in logistics, further solidifying Nimu Tech as a trusted partner in navigating complex logistical challenges with confidence and efficiency.

NIMU TECH

Construction

Since 2008, Nimu Tech has been fully capable of completing construction and engineering projects from the award of contract to completion, demonstrating a strong ability to work with international companies and adhering to first-world and international standards in professionalism and quality of work.

Their expertise includes complete project management from the award date to handover, design schemes developed by qualified architecture and engineering teams, and professional surveying with the most up-to-date equipment and skilled staff.

Additionally, their services cover electrical work, structural work, masonry, plumbing, HVAC installation, steel fabrication, interior and exterior finishing,

procurement, health, safety, and environmental (HSE) management, and quality assurance/quality control (QA/QC). The performance standards implemented by Nimu Tech have been accepted by major international companies and their service providers, ensuring that all projects meet international standards and are handed over with the complete satisfaction of each and every client.

Nimu Tech continuously invests in the latest technologies and best practices to maintain its high standards. The company's commitment to sustainability and innovation further sets it apart in the industry, contributing to long-term project success.

NIMU TECH

Ability Cars

Ability Rent-a-Car, a trailblazing force in Iraq's vehicle leasing sector, has firmly established itself as a pioneering company with services that set it apart from competitors.

Boasting a diverse and growing fleet of over 250 vehicles, including sedans, trucks, SUVs, and armored vehicles, the company caters to the dynamic demands of both short-term and long-term leasing, all while maintaining highly competitive rates.

At the heart of Ability Co.'s operation is a commitment to customer satisfaction, evident through its customer-centric approach, 24/7 customer service, emergency roadside assistance,

and the provision of complimentary courtesy cars. Strategically positioning service centers nationwide, underscores the company's dedication to accessibility and ensuring customers' peace of mind. Leveraging extensive experience in the car leasing industry, Ability Co. not only meets but exceeds expectations, offering tailored solutions that resonate with diverse service requirements.

As the company continues to evolve, its unwavering commitment to maintaining high standards and a varied fleet solidifies Ability Rent-a-Car as a trusted and customer-friendly choice for vehicle leasing excellence in Iraq.

EXPERIENCE

Summary of Experience

Nimu Tech has successfully executed numerous projects across Iraq, spanning the Oil & Gas, Warehousing & Logistics, Environmental Remediation, and Operation & Maintenance (O&M) sectors. With a commitment to excellence, safety, and innovation, we deliver tailored solutions that meet the evolving needs of our clients.

Oil & Gas

Nimu Tech brings extensive expertise to the oil and gas sector, providing high-quality procurement, logistics, and construction services to support both upstream and downstream operations. Our deep understanding of industry standards, safety regulations, and operational efficiency allows us to execute projects that enhance infrastructure, streamline supply chains, and optimize operations. From sourcing specialized equipment to managing complex transportation logistics and construction projects, we ensure reliability, efficiency, and excellence in every endeavor.

Warehousing & Logistics

As a leader in warehousing and logistics, Nimu Tech offers end-to-end solutions for the secure storage, handling, and transportation of goods. Our state-of-the-art facilities accommodate diverse industry requirements. We optimize supply chains with strategic planning and seamless distribution, ensuring cost efficiency and operational excellence across multiple industries.

Environmental Remediation

Nimu Tech delivers comprehensive environmental field services to government entities and top contractors across Iraq. Our ability to provide turnkey solutions ensures technical satisfaction and financial responsibility for project execution.

Our services cover the entire project lifecycle, from site assessments to remediation, utilizing highly qualified professionals and in-house equipment to efficiently complete any task. With extensive access across Iraq, we streamline resources, enabling clients to focus on project management and customer satisfaction.

Safety is at the core of our operations. We prioritize the well-being of communities, employees, and stakeholders, implementing rigorous safety training, including HAZMAT certification, to proactively mitigate industry hazards.

NIMU TECH History

Nimu Tech was established in 2008 to support the growing demand for high-quality infrastructure and construction services in Iraq. Over the years, the company has expanded its expertise to become a leading provider of architecture, engineering, and construction solutions.

Initially specializing in oil and gas services, warehousing, and land leasing, Nimu Tech gradually evolved into a full-service construction firm, undertaking complex projects that meet international standards. By collaborating with Western contractors and engineers, we have gained extensive knowledge and experience in executing projects with precision and efficiency.

Despite our humble beginnings, Nimu Tech has remained committed to delivering high-value, quality services. Our approach is rooted in understanding our clients' needs, leveraging our expertise, and turning their visions into reality.

We recognize that international investors and partners require a contracting company capable of delivering innovative and sustainable design and construction solutions often on accelerated schedules without compromising on safety or quality. Through our technical and financial resources, we ensure that every project meets and exceeds client expectations.

At Nimu Tech, our philosophy is to prioritize our clients, maintaining open and transparent communication from project initiation to completion. We utilize all available resources and operational expertise to successfully fulfill any request, ensuring that every client's requirements are met with excellence.

With a proven track record of delivering high-quality engineering and construction projects, our team continuously seeks innovative solutions, staying at the forefront of technology and industry advancements.

Competitive Advantages IN IRAQ

Our success as an engineering and construction contractor in Iraq stems from our financial stability, resources, and relationships. When mobilizing for a project, we are able to do bulk procurement of necessary materials up-front, never delaying a project due to lack of cash flow.

We are one of the oldest and most established contracting companies in the country. Due to the scope of our experience on previous projects, we have a tremendous amount of scaffolding to automated metal structure forming machines, we don't have to wait until we have a purchase order to buy equipment. We are ready to go today.

Through well-developed relationships with the local tribal leaders, government officials, ministries, and vendors, we have the capacity and ability to quickly respond when establishing life support camps, mobilizing personnel, and transferring materials throughout Iraq.

Local Flavor:

Adhering to the government's localization workforce plan, Nimu Tech employs a local team of highly qualified engineers, architects, financial consultants, and contracting officers who develop proposed strategies, making our work suitable for the Iraqi environment. We have maximum flexibility in handling projects of various forms across most of the country.

Our environmental field services are certain to reduce project budgets and increase overall success and satisfaction. When you place your trust in Nimu Tech, you can count on technical expertise and innovative problem-solving, all expertly applied to deliver quality results.

Operation and Maintenance Services

In addition to our construction capabilities, Nimu Tech is also well equipped to provide O&M support on facilities we have or existing facilities on an as-needed basis.

Strategic Vision

Sustainable Growth & Social Responsibility

At the core of Nimu Tech lies an unwavering commitment to strategic expansion, continuous innovation, and social responsibility. Despite the challenges of regional and global economic shifts, our dedication to growth and development remains steadfast. This determination drives us to explore new frontiers, leveraging the expertise of dynamic professionals in a culture of collaboration and creativity. By fostering fresh perspectives, we empower our team to overcome challenges and seize opportunities with confidence and resilience.

Our strategic vision is deeply rooted in sectors that drive economic advancement, particularly in agriculture and industrial development. Recognizing the pivotal role these industries play in strengthening local economies, our commitment to their progress remains firm. However, our aspirations extend beyond conventional principles—we aim to pioneer new industries, create opportunities where none existed, and redefine the boundaries of possibility.

Aligned with this vision, we have embarked on a bold initiative to champion clean energy solutions and convert energy waste into a valuable resource. By transforming waste into opportunity, we reduce environmental impact while paving the way for sustainable growth. This initiative seamlessly integrates with our broader goal of promoting ecological responsibility while driving economic prosperity.

We also recognize the importance of optimizing agricultural practices to

Strategic Vision

Sustainable Growth & Social Responsibility

maximize yields and improve efficiency. Central to this mission is the promotion of natural fertilizers and the adoption of sustainable farming techniques. By prioritizing environmental sustainability and resource efficiency, we ensure that our agricultural pursuits generate maximum benefits while minimizing their ecological footprint.

As Nimu Tech moves forward, we do so with a clear vision and a firm commitment to catalyzing positive change. Our strategic roadmap outlines a future of sustainable growth, innovation, and resilience. With a spirit of collaboration and determination, we are ready to overcome challenges and navigate towards a more prosperous future.

Commitment to Social Responsibility

Beyond our core business objectives, Nimu Tech is dedicated to empowering communities and fostering social responsibility. A key focus of our initiatives is advancing women's rights and ensuring their integral role within our organization. We recognize the invaluable contributions of women in driving innovation, fostering diversity, and enhancing organizational effectiveness. Through targeted policies and a supportive work environment, we are committed to equality and inclusion.

Additionally, Nimu Tech is dedicated to developing expertise and nurturing talent within our organization. Through continuous training and development programs, we ensure that our workforce remains at the forefront of industry advancements and best practices.

Moreover, we actively support local talent and build capacity within the communities where we operate. By organizing workshops and training courses, we empower individuals with the skills and knowledge needed for career development. These initiatives not only enhance professional growth but also contribute to economic stability and social cohesion.

A Future of Impact and Innovation

In summary, Nimu Tech's strategic vision extends beyond sustainable growth and innovation—it is deeply rooted in social responsibility and community empowerment. Through a multifaceted approach, we strive to create lasting positive impacts, drive inclusive growth, and foster prosperity for all stakeholders. As we continue to forge ahead, we remain guided by our core values of integrity, excellence, and inclusivity, ensuring that every step we take aligns with our mission to create value for society and promote

Mission Statement

As a client driven company, we strive to offer the best service that can be achieved within any given budget. Our focus is to complete all projects undertaken on time, within budget, with utmost regard to safety & quality to the complete satisfaction of the client.
